Eurogames Stewart Woods, 2012-08-16 While board games can appear almost primitive in the digital age, eurogames--also known as German-style board games--have increased in popularity nearly concurrently with the rise of video games. Eurogames have simple rules and short playing times and emphasize strategy over luck and conflict. This book examines the form of eurogames, the hobbyist culture that surrounds them, and the way that hobbyists experience the play of such games. It chronicles the evolution of tabletop hobby gaming and explores why hobbyists play them, how players balance competitive play with the demands of an intimate social gathering, and to what extent the social context of the game encounter shapes the playing experience. Combining history, cultural studies, leisure studies, ludology, and play theory, this innovative work highlights a popular alternative trend in the gaming community.

None of the scions of Sanguinius are as bloody or wrathful as the Flesh Tearers. The fury of this Chapter, scorned by the Blood Angels and many of their successors, is legendary. Within them, the Black Rage is made manifest, a curse on the Imperium and its enemies. In the uncertain years following the end of the Great Heresy, it fell to Amit to lead this benighted Chapter. Upon his shoulders lay a heavy burden, for to prevent their own self-annihilation, the Flesh Tearers must not only fight their many foes but their very nature itself.
